

Welcome

Surrounded by pines in the heart of lovely downtown Menlo Park, just one block from Santa Cruz Ave is Atherton Healthcare, a full service skilled nursing and rehabilitation facility.

We provide a complete package of rehabilitation services, social and recreational activities, hospice and respite care, fine dining, and 24 hour skilled nursing for both short and long term residents.

At Atherton Healthcare we devote our time and effort to offering superior care for seniors in need. Our team of highly trained professional caregivers value your input and will work alongside with you and your family to develop an individualized care plan.

We not only emphasize the physical well-being of our residents but also, their social and mental well-being. Everyone is encouraged to participate in games, listen to guest speakers or musicians, enjoy an ice-cream social, paint, and so on.

OUR HOME IS

YOUR HOME

Overview

After deciding that a care facility is necessary, you will find yourself facing the difficult task of selecting the right one for you or a loved one. Quality of care, services offered, and financial accommodations are just a few factors to consider before making this very important decision.

At Atherton Healthcare, whether your stay is temporary or long-term, you can rest assured that you will be living in a beautifully kept facility. Our housekeeping staff services each resident's room to ensure they are spotless and attractive. Residents can expect to have their clothing carefully laundered each and every week.

We take pride in the variety of activities offered to our residents. Routine social activities include coffee, news updates, exercise, and relaxation programs. For residents with special needs, focused activities are planned to enable them to complete certain tasks.

General Services

Medical application assistance, IV services, lab services, x-ray services, podiatrist services, optometrist services, 24 hour licensed nursing, restorative nursing care, wound care, nursing maintenance program, hospice care, three balance meals per day, regular / special / therapeutic diets, dentist, house keeping and laundry services, social services, daily activities, religious studies, beautification services, and much more...

Rehabilitation Services

Our extensive rehabilitation services emphasize achievement. Each resident's recovery potential is accessed and goals for improvement are established. Each therapist is properly trained and certified in their field of specialty. Our rehabilitation program consists of the following:

- * Physical Therapy
